Subject: Support Public Retirement for All SB 249

Date: March 3, 2014 5:47:47 PM EST

Everyone deserves a secure retirement. But less than half of Connecticut workers have an employer-sponsored retirement plan. And many jobs are not covered by Social Security! My daughter, for example, is a teacher in the New Haven public schools who is not covered by Social Security.

I worry about her future and that of my grandchildren. She is one of the 53% of American workers 30 and older are "at risk" to have insufficient assets for retirement when they reach the age of 65.

I urge you to support the "Retirement for All" plan, SB 249.
